About VOS 2013

Vallejo Open Studios 2013
Saturday & Sunday, November 9 & 10
11am to 5pm both days

Vallejo Open Studios is a free self-guided tour. Vallejo is home to many talented artists. Each year we are happy to be joined by former participants and to welcome new ones.

Many of our artists are able to open up their studios to the public, while others will show from a shared space. Be sure to visit as many locations as possible. Each site is unique and will offer something new to your experience.

The Bauhaus Dessau was built in 1926 by German architect Walter Gropius. Logo designed by Herbert Bayer.

Bauhaus 1919-33

This year we are paying homage to the Bauhaus art style which began with this definition: "The building of the future is to combine all the arts in ideal unity." The founder, Walter Gropius, believed that artists and craftsman should work together.

People often debate what constitutes fine art vs. arts and crafts and the merits of each. We welcome art of all types during Open Studios and recognize each discipline as having equal importance in contributing to our community.

The typeface used for heads and subheads in this book is Bauhaus and the book is designed to reflect the architectural nature of the Bauhaus art movement. Read more about the Bauhaus school and art movement at www.bauhaus.de

On The Cover

Jeff Snell's paintings unite traditional landscapes and popular culture as vigorous abstract rhythms. Working with brush and spray, Snell uses expressive gestures that incorporate a variety of forms found in nature and elements of urban flair. The organic qualities of his subjects exist in a fantastic world, where the natural position and order of the landscape is challenged in an unruly microcosm. His paintings radiate an energy and excitement that engage the viewer and offer a glimpse of nature's inner sanctum.
